

THE INNOVATIVE EDTECH

Workshops From Jordan Smithson

**Empowering everyone
to achieve more with
technology**

JORDAN SMITHSON MBCS

THE INNOVATIVE EDTECH

Jordan is the dynamic Trust IT Services Manager at Peterborough Keys Academies Trust, leading the charge in technology innovation and security across the 5 trust schools and wider MSP network of schools. With a mission to 'Unlock potential through technology,' Jordan's expertise is pivotal in steering the trust's strategic IT vision.

As a non-executive director for InnovateMAT, he broadens his governance skills, infusing the trust with cutting-edge digital insights and legislative guidance. A recognised Microsoft MIE Expert and Apple Teacher, Jordan has collaborated with over 300+ educational institutions across the UK and 2,000+ educators globally, driving educational excellence through technology.

Jordan has spent the past 8+ years building up a strong wealth of knowledge and skills around the inner workings of schools/academies on areas such as EdTech, innovation, operational, leadership and governance.

Jordan has been fortunate to speak at a number of events across the UK as well as feature on a range of podcasts and webinars discussing his journey from 'Sixth Form to Senior Manager', 1-1 technology, SEND technology and much more.

Over the past year alone, Jordan has spoke at a number of key events across the UK on challenging the thought process around integrating technology into the curriculum.
